2019 INTRODUCTIONS

COME SEE US

Minuteman International® has been serving the fireplace & woodstove industry since 1977. We provide a broad range of hearth products and still abide by our original goal to supply quality products at attractive prices through exceptional customer service. In 2008, we enhanced our product selection through the acquisition of ADAMS' fireplace accessories. All our products are in stock for shipment from our warehouse in Fitchburg, Massachusetts.

Wishing you the best for a great 2019,

Achla Bahl Madan &
Ashok Hingorany

Randy West, Marketing
Diane Shattuck, Controller
Ruchika Madan, Designer

Hearth Rugs provide padding and protection to carpeting in front of a fireplace. Created especially for larger fireplaces found in contemporary homes, these two rugs are both smart enough to accentuate a formal living room and casual enough to complete a cozy den.

Anatomy of Our Tool Sets

Tongs designed to easily manipulate logs. Solid rivets assure that the tongs work smoothly and will not rattle or come apart.

Handles designed to fit the hand. Each is permanently bonded to the rod so it will not come loose with use.

Cast racks are hand filed during assembly, assuring a smooth fit for tools.

Tools are sturdy and properly balanced. To insure durability we use heavy solid brass or steel in our rods.

Brushes made from Tampico, a natural fiber selected for its excellent sweeping action, texture and durability.

Shovels are solidly riveted and generously proportioned.

Balanced with broad heavy bases, designed with enough weight to anchor each fireset and prevent tipping.

Since the 15th Century, the fireback has been an indispensable part of fireplace tradition in Europe which colonists then carried to America.

Add that touch of elegance and history to your fireplace and greatly enhance the focal point of the room. Standing at the back of the fireplace, firebacks protect brickwork from damage while radiating heat from the fire out into the room.

Firebacks are designed to rest on the floor of the hearth. If extra height is desired, some of our firebacks can be paired with "boots," as indicated (*X670130 or † CFB-F) to hold the fireback upright and raise it off the hearth floor. Boots can be used with gas log or wood burning fireplaces.

MC-30 Crane with Hearth Grate

Fireplace Cranes
Wrought Iron, 22" L mounting bracket is pre-drilled for masonry anchor bolts. Beautiful yet functional, these brackets swivel out to remove kettles, casseroles, etc.
Black

MC-18 18" swivel arm

MC-24 24" swivel arm

MC-30 30" swivel arm

Basket Grates

Basket grates are designed to lift logs above the floor to create airflow inside the fireplace. They can also be effectively used to create an outdoor fireplace. An Ash Pan beneath keeps embers contained.

The largest single source for woodstove and fireplace accessories

*Our Community - Annual Fitchburg
Blacksmithing Art & Renaissance Festival*

We are ardent supporters of the arts in our community, and in 2003, founded an Annual Blacksmithing Festival each fall in our town of Fitchburg, Massachusetts, held at the downtown Riverfront Park, along the bank of the Nashua River. The event is open to the public and has garnered substantial support from the City of Fitchburg, Cultural Council, and neighboring communities.

The festival strives to raise awareness of the art and craft and promotes a congenial fellowship among students, hobbyists and professionals alike. Participants bring portable forging stations to the park for a full day of work on projects and competition. Each year a well-known Master Blacksmith is invited to judge the competition and demonstrate skills. These live demonstrations have become a highlight of the event, alongside local crafts, food, music and Renaissance-themed events.

This year's festival will be held September 28th 2019.
